

Daily Directions

Daily Directions

More than doers, we are deciders. Decisions are a major factor in formulating our everyday life. Because there is so much stimuli, opportunity and information thrown our way, sometimes things can become extremely confusing. These cards are designed to give us insights and direction. They help us to stop, contemplate and study. We are then better equipped to go forth in an intelligent and mindful way. Miraculously, somehow the cards are always in alignment with our highest good.

Quiet yourself – ask the question directly – then pick a card.
Or, make it a daily practice by asking – “What is my direction for the day?”

Pay Attention
